

Birth to 22 Palm Beach County United for Brighter Futures

Palm Beach County Indicators of Child, Family and
Community Risk, Well-being and Access to Supports

July 2023

Dear Community Advocate,

This crossroads in our history has underscored the importance of data and facts, especially when the information is about our community's children. That's why we are proud to share the latest Birth to 22 United for Brighter Futures 2022 report: "Indicators of Child, Family and Community Risk, Well-Being and Access to Supports." This comprehensive, data-focused analysis looks deeply at children's health and wellness in Palm Beach County. While data cannot tell the whole story, it can illuminate our community strengths, challenges and gaps. This goes a long way in advancing our collective impact purpose – that all Palm Beach County children have a real opportunity to thrive from cradle to career.

As we move forward together, addressing the persistent economic struggles, loss of a sense of safety and increased mental health concerns, this report can act as an important baseline for the future work.

We value your interest in this data and appreciate your continued support of our collective mission.

Sincerely,

A handwritten signature in blue ink, appearing to read "LWT", representing Dr. Lisa Williams, Taylor, CEO.

Dr. Lisa Williams, Taylor, CEO
Children's Services Council of Palm Beach County

A handwritten signature in blue ink, appearing to read "Tammy K. Fields", representing Tammy K. Fields, Director.

This compilation of information is intended to illustrate the landscape for Palm Beach County children and families. Information is organized and presented to align with the Birth to 22 Palm Beach County Steps to Success. Data was obtained and prepared by Child Youth & Community Data Team of the Birth to 22 Palm Beach County Initiative and contributing partners.

Steps to Success

The Steps to Success represent 6 domains of child and youth development – physical health, behavioral health, academic readiness, social/emotional well-being, career readiness and connection and contribution to community and society. These steps represent key markers of success that allows us to access developmental outcomes. As children and youth make their way up these stairs, we are able to track their progress or lack thereof. The indicators, or measures, for these different areas are shown above the stair steps in the green text (for things we are trying to promote) and orange text (for things we are trying to prevent). Understanding what this data looks like for different subpopulations within Palm Beach County is also essential. In order to achieve those outcomes, children and youth need key supports along the way, through a combination of effective parenting and safe and nurturing families and communities. A sample of possible measures are listed below.

Steps to Success & Supports for Success

STEPS TO SUCCESS: Child & Youth Outcomes & Indicators

ECONOMIC ACCESS: Percentage of Families in Poverty • Access to Housing • Workforce and Job Development Opportunities • Number and Percentage of Households receiving Food Stamps • Access to Transportation

PARENTING & ROLE MODELS: Parenting stress (situational are chronic) • Knowledge of Parenting and Child Development • Support Services for Parents

SOCIAL & EMOTIONAL SUPPORTS: Access to Afterschool Services • Access to Early Childhood Education and Care • Mental Health Assessments & Services • Caregiver Stability • Bullying

EDUCATIONAL SUPPORTS: Educational Attainment • Advancement via Individual Determination • Parent Education & Involvement • Healthy School Connections • Effective Schools

HEALTH & WELLNESS SUPPORTS: Access to Health Insurance • Food Deserts • Physical/Eye/Hearing Exams • Late or No Prenatal Care • Access to Safe and Clean Parks and Recreation Spaces

REMOVAL OF COMMUNITY STRESSORS & SYSTEMIC BARRIERS: Crime Reduction • Access to Domestic Violence Services

KEY: + Child & Youth Indicator (Promotion) - Child & Youth Indicator (Prevention) Blue = Family, School or Community Supports Bold = measures & data currently available Italics = measures and/or data TBD

2021 Food Insecurity for Palm Beach County Children

| Insecurity Rates, Access to Nutrition Supports and Budgeting | How Much? |
|---|------------------|
| Food Insecurity Rate Overall | 8.9% |
| Food Insecurity Rate for Children | 13.2% |
| Number of Food Insecure Children | 37,530 |
| Income Eligible for Federal Nutrition Programs (incomes at or below 185% of poverty) | 66% |
| Likely Ineligible for Federal Nutrition Programs (incomes above 185% of poverty) | 34% |
| Annual Food Budget Shortfall | \$102,888,000.00 |
| <i>"Food insecurity refers to USDA's measure of lack of access, at times, to enough food for an active, healthy life for all household members and limited or uncertain availability of nutritionally adequate foods. Food insecure children are those children living in households experiencing food insecurity."</i> | |
| <i>Food Budget Shortfall: Responses from food insecure households to the Current Population Survey questions about a food budget shortfall are calculated at the individual level and then averaged to create a weekly food budget shortfall. This national average weekly shortfall can be annualized by multiplying the estimate by 52 (weeks per year) and again by 7/12 (the average number of months in a year that food-insecure households experience food insecurity per the U.S. Department of Agriculture).</i> | |

Disproportionality Index for Palm Beach County Children in Out of Home Care For FY 2018-19 through FY2021-22

| Race | FY2019 | FY2020 | FY2021 | FY2022 |
|-------|--------|--------|--------|--------|
| White | 0.66 | .66 | 0.67 | .63 |
| Black | 1.74 | 1.67 | 1.68 | 1.80 |
| Other | 1.51 | 1.94 | 1.47 | 1.14 |

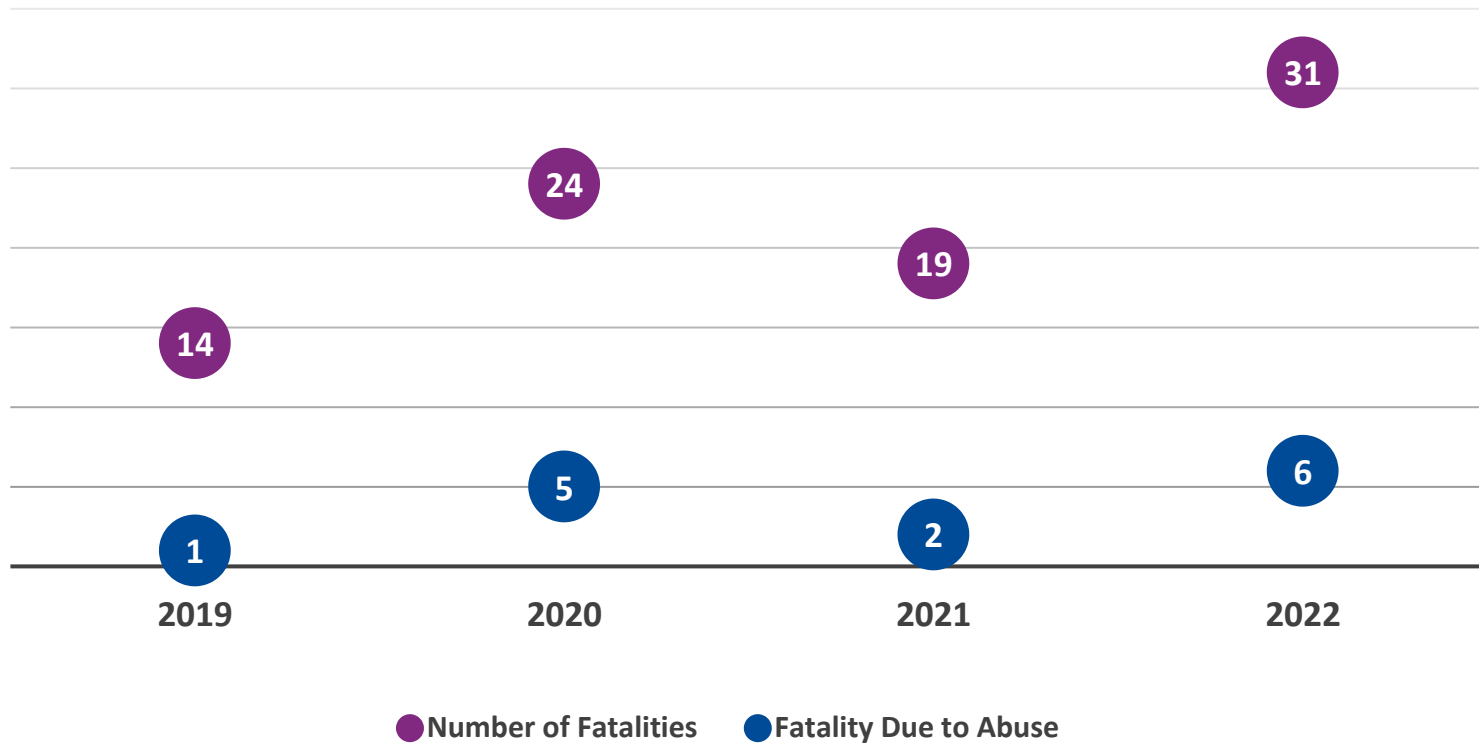

Note: A Disproportionality Index is used to compare rates of an event or indicator for different groups of individuals. As used above, it indicates the probability that a child of a particular race will experience out of home care as compared to a child regardless of race. A number > 1 indicates the population experiences disproportionality relative to the general population.

Access to Afterschool Programming

Indicators

- Quality Improvement System (QIS) Description and Rationale
- Number of Children Attending Afterschool, QIS Participating Programs or Designated High Quality Centers

Access to Afterschool Programming

- **The Quality Improvement System(QIS)**

Through the *Palm Beach County Quality Improvement System*, afterschool programs receive **coaching, training and other Prime Time supports** designed to improve quality. Programs also create an **improvement plan** each year and learn to assess their own performance.

- **What is High Quality?**

High quality programs provide a **supportive and engaging environment for youth**. Program quality is assessed each year using the **Palm Beach County Program Quality Assessment (PBC-PQA)**. Scores on the assessment range from 1 to 5, and average scores of 4.1 or above are considered “high quality.” However, in the past two fiscal years, quite a few programs were not assessed due to the COVID impact, therefore comparison for progress in program quality from year to year were not available.

- **Why Quality Matters**

Prime Time’s work is rooted in a wide body of research demonstrating that **quality OST programs lead to substantial academic, social, and emotional benefits for youth**. These benefits include higher grades, improved standardized test scores, on-time grade promotion, reduced dropout rates, and increased school day attendance in programs throughout the country.¹ Programs that attend to the social and emotional needs of youth lead to skill development, well-being, prosocial behavior, as well as improved academic performance.² Importantly, **program quality is often critical for seeing benefits**. In many cases, no benefits are seen unless a program is of high quality.³

- **Access to High Quality**

In the FY2019-20, 57% of QIS programs significantly improved in quality **OR** maintained high quality.

Access to Afterschool Programming
